

Field Crop Report

University of Guelph Crop 4240 (Weed Science) Assignment

Next Week: Seasonal crop summaries begin with Forages

By: Mike Cowbrough

University of Guelph students in Crop 4240 (Weed Science), were given an assignment to produce a short video that clearly illustrated how to identify 6 common weeds in field crop production, why they are considered bad and how to manage them in a crop of their choice. All of these videos can be viewed by going to www.youtube.com/user/crop4240

Lamb's-quarters:
